

CLARK, ARTHUR ROYAL  
November 26, 1897-March 31, 1902

Arthur Royal Clark, aged 6 years and 4 months, son of Mr. and Mrs. C.R. Clark, died on Monday of this week from scarlet fever. The funeral was attended by only a few and with great precaution, was conducted by Rev. G.W. Carter. Their other children, two little boys, are convalescing from the dread disease. Mr. Clark's broken limb has healed sufficiently to let him get about a little on crutches. The introduction to these estimable people to their new home has been anything but pleasant. May their skies be brighter in the future.
