

UNKNOWN MALE IV

?-February 1, 1917

The body of the old man who died last Thursday at the Hospital, is still being held at the Christensen undertaking rooms, while efforts are being made to positively learn his real identity.

The man, who gave his age as 72 years was brought to the hospital from Guernsey as a county patient, having been picked up on the streets there, very ill. He lived but a short time after reaching Wheatland, and the only thing that could be learned was that his name was either Harrison or Harris and that he had relatives somewhere in Pennsylvania.
