

**WOODS, WILLIAM**

?-January 14, 1929

The charred body of William Woods, 73, was found last Tuesday in the ashes of his cabin in the Duck creek hills in Laramie county west of Wheatland, by Sam Priet of Medicine Bow.

Woods is believed to have been a trapper. He lived alone in the hills south of Garrett for many years. The body was charred beyond recognition when Priet reached the scene. It was found near the door where the cabin had been. Priet was unable to determine when the fire occurred.
